

## LONG YEARS AGO

July 24, 1903

Ben Diek has disposed of his literary business to W.T. McClain.

The Street Fair this month promises to be a good one and a large number of dairy cows and young stock will be offered for sale.

The weather is beautiful—and all that could be desired.

The Bell Telephone Co. is putting in its system on the C & E line and it won't be long before we can phone to any point between Calgary and Edmonton.

Haying season has commenced and new settlers are buying up mowers and rakes.

Ed Sparr has purchased the north east quarter of Sec. 1, Twp. 30, Rge. 2 west, from Price and Liesemer.

## FAREWELL FOR MRS. WIEBE

A farewell was held recently for Mrs. Wiebe at the home of Mrs. H. Oke. After a dainty lunch was served Mrs. Wiebe was presented with a gift. Mrs. Oke planned a remembrance album for Mrs. Wiebe. All the ladies present brought snapshots and placed them in the album.

## MARTIN KREBS DIES IN CALGARY AFTER LONG ILLNESS

Came to the Didsbury  
District 40 Years Ago

Martin Albert Krebs, 83, an old timer of the Didsbury District died in Calgary on Wednesday, July 16, following a lengthy illness.

Mr. Krebs came to the Didsbury district 40 years ago and for the past ten years has resided in Calgary.

Surviving are two sons, August and Emil, both of Didsbury; five daughters, Mrs. C. H. Hohn, La Porte, Indiana; Mrs. Archie McLean, Salmon Arm, B.C.; Mrs. J. O. Reimer, Brightview; Mrs. A.V. Esler, Didsbury; and Mrs. B. Havens, Anaconda, Montana; 37 grand children and 15 great-grandchildren also survive.

Funeral services were held from the Evangelical church, Didsbury, on Friday, July 20th, at 2:30 p.m., with Rev. A.F. Reimer officiating.

The Didsbury Funeral Home had charge of arrangements and interment followed in St. Paul Lutheran Cemetery south west of town.

## DONATIONS TO DIDSBURY MUNICIPAL HOSPITAL

The following donations have been received from various organizations and individuals towards the new Didsbury Municipal hospital:

**Private Wards:** Girl Guide Ranger Group; Allan Hunsberger; Rugby Women's Institute.

**Two Bed Wards:** New Berthel Mennonite Church; Zion Evangelical Church; King Hiram Lodge A.F. & A.M. and Order of the Eastern Star; M.B.C. Church, Didsbury.

**Four Bed Wards:** Didsbury District Institutes.

**Waiting Rooms:** Westerdale Ladies Aid.

**Office:** Members of the Hospital Board and the Secretary.

**Grounds:** Didsbury Lions Club.

**General Donations:** Fred Schneider; Didsbury and District Board of Trade; St. Paul's Lutheran Ladies Aid; Springdale Junior Red Cross; Zella Junior Red Cross.

**Doctors Rooms:** Furnished by the Doctors.

**Nursery:** Furnished by the Mons Chapter I.O.O.F.

## ABE D. SCHMIDT RECEIVES NEWS OF RELATIVES

Abe D. Schmidt received the first news from his relatives in Poland since the war broke out, with the exception of one short Red Cross letter five years ago. His mother passed away in May '41. His three brothers residing in his home town were all taken into the German army when Poland was over run by the Nazis. His youngest brother, Adolf is quite well and a prisoner of war in a camp near New York. Mr. Schmidt is hoping to see him soon.

## HARMATTAN NEWS NOTES

Mr. O. Lindsay and sons Victor and Wallace of Prince Rupert are spending a holiday at the home of Mr. Lindsay's mother.

Victor Johnson who has spent an 8-day holiday at camp at Red Deer has returned home.

Mrs. Cotton was taken to the Olds hospital early in the week.

The Flu has been taking its toll in Harmattan and many have been quite sick and are still in bed, among them are: G. A. Lindsey; Billy Johnson and Elmer Gilmore.

Mr. and Mrs. J.H. Johnson and grand daughter Kathleen were visitors in Calgary last week.

Many Harmattan people attended the sports day at Olds Saturday.

Mr. and Mrs. Henry Neilson and Lawrence Jensen are visiting with the Wm. Turnbull family.

(Received Too Late For Last Issue)

Mrs. Brock Brower and children Brock, Beth and Ann, who for the past year have resided in the two rooms above Lindsay's store, have gone to Kimberley, B.C. to join her husband who is working there.

Many Harmattan residents visited Calgary Stampede week. Among those were Mr. and Mrs. F. Johnson and family; Sam Gilmore; Robert Johnson; Doris Gilmore, Mr. and Mrs. Ball and family, and Mr. and Mrs. A.M. Smith and family.

Born to Mr. and Mrs. Arthur Jones last week, a baby boy; and to Mr. and Mrs. Geo. A. McDonald on July 14, a girl.

Earl Lindsey, Bob Strand and Victor Johnson are in Red Deer attending camp meeting.

We are glad to hear that Albert Gilmore, who is in the Infirmary hospital with pneumonia, is much improved.

Mrs. Betty Brown is nursing Mrs. Cotton at night; now Mrs. Cotton's condition is about the same.

## MRS. ROBERT STEVENSON DIES IN DIDSBURY HOSPITAL

Mrs. Robert (Bertha May) Stevenson, 30, Gardfield, died in Didsbury hospital on Saturday morning, July 21st.

Born in Didsbury, Mrs. Stevenson had lived in the district all her life.

Surviving are her husband, Robert, Gardfield; her mother, Mrs. E. Good, Gardfield; two brothers, Lyle, Gardfield; Arthur, overseas with the R.C.A.; and two sisters, Mrs. D. Dunphy and Miss Mary Good, both of Gardfield.

Funeral services were held at the Evangelical Church, Didsbury, on Tuesday at 2:30 p.m. with Rev. A. M. Amacher officiating.

Interment followed in the Didsbury cemetery with Didsbury Funeral Home in charge of arrangements.

## Cherishing Cards FOR ALL OCCASIONS

Weddings, Anniversaries, new Babies, and Birthdays are but a few of the many occasions for which we have appropriate greeting cards.

Come in and "get acquainted" with our complete selection of Coult's quality cards.

## LAW'S DRUG STORE

The home of Mr. and Mrs. Robert E. McMullen of Fallen Timber, Elkton, Alberta, was the scene of a pretty home wedding in the early afternoon of Tuesday, July 17th, when their only daughter, Bernice Pearl, was united in marriage to Mr. Wilfred E. Blain of Cremona.

The ceremony was performed by Rev. D. White Smith of Didsbury in the presence of immediate relatives and friends.

The rooms were tastefully decorated in white, blue and pink paper, and lovely wild and cut flowers.

The bride wore a powder blue crepe two-piece afternoon dress and white accessories, and her traveling suit was blue tweed. Mrs. Clinton B. McMullen of Caplan, Alberta, was matron of honor and looked lovely in a two-piece afternoon dress of beige crepe with brown accessories.

The groom was supported by P.O. Archie McMullen.

The happy couple left in the late afternoon by motor for Calgary and from there by train to Banff for a short trip, amid the best wishes of friends and showers of confetti.

## CALF CLUBS STAGE SHOW AND SALE AT CARSTAIRS JULY 16

76 Head of Calves Sold  
For Total of \$8,800.00

The Carstairs, Grainger, Madden and West Didsbury Calf Clubs held their fair and sale at Carstairs on July 16, displaying 76 head altogether. Madden club entered 24 calves, Carstairs and Didsbury 19 each, and Grainger 14.

The Carstairs Board of Trade arranged the event so that each club had a separate section.

Many special prizes were given. The Alberta Hereford Breeders donated \$100, the Shorthorn Breeders \$25, \$25 to the reserve championship, and special prizes to a special class, which took into consideration breed characteristics, in addition to exhibiting all prizes by Shorthorns in the regular competitions. 19 Shorthorns were entered.

The Alberta Aberdeen Angus Association paid \$6, \$4, \$3 and \$2 to the Aberdeen Angus calves and \$1 to each additional Aberdeen Angus.

The T. Easton Company, Winnipeg, donated \$30 to be paid to each club, to be paid in sums of \$2 for each of the first 15 calves in each club.

The regular prize money was \$6, \$5, \$3, \$2 and \$1. Howards contributed by the Alberta Department of Agriculture, one third by the Dominion, while one third was raised by locally Judging contests were held earlier and awards made.

Billie Francis of the Carstairs club won the championship with a Hereford steer. The reserve championship was won by Lloyd Halstead of the Grainger Club with a Shorthorn steer calf.

Following are the first six in each club:

West Didsbury—1. Donald Robertson; 2. John Klink; 3. Leonard Lutz; 4. Dennis Worthington; 5. Ken Worthington; 6. Gordon McNaughton.

Carstairs—1. Billie Francis; 2. Norma Kimmel; 3. Howard Francis; 4. Stanley Bell; 5. Don Stewart; 6. Fred Bell.

Grainger—1. Lloyd Halstead; 2. Keith Halstead; 3. Duncan McDonald; 4. Jean McDonald; 5. Jimmie McDonald; 6. Don Bell.

Madden—1. Gwen Goddinton; 2. Frances Sullivan; 3. Nels Nielsen; 4. Loris Walsh; 5. Douglas Havens; 6. Muriel Goddinton.

Following are the showmanship winners:

Carstairs, Norma Kimmel; Grainger, 1. Jean McDonald; 2. Lloyd Halstead.

Madden, 1. Douglas Havens; 2. Ray Hargerty.

West Didsbury, 1. Donald Robertson; 2. Don Bell.

A special prize donated by Chas. Stewart, for the champion showman, was won by Donald Robertson of West Didsbury club.

Winners in the special class of Herefords were: 1. Howard Francis, \$12; 2. Norma Kimmel, \$10; 3. Donald Robertson, \$9; 4. Billie Francis, \$8; 5. Owen Goddinton, \$7; 6. Frances Sullivan, \$6; 7. Muriel Goddinton, \$5; 8. Nels Nielsen, \$3; 9. Loris Walsh, \$4; 10. Ken Worthington, \$4; 11. Jean Liddell, \$3; 12. Audrey Clark, \$3.

John Wilson Sr., secretary of the Alberta Hereford Breeders Association, judged this special class, while Prof. Saville and W. Mead judged the regular classes.

Archie Boyce of Olds auctioned the calves.

## RENOVATING BUILDING TO BE USED AS MASONIC HALL

Wm. McFarquhar has had carpenters busy the past couple of weeks tearing out the partition between the rooms and hall way of the upper floor of his building, above the hardware and the New Shoppe, and when completed the premises will be used by Didsbury Masonic Lodge for their lodge and banquet rooms.

Present plans call for the using of the old lodge rooms as a banquet room, while the north part of the upper floor of the building, together with the hall way, will be combined into a larger room to be used for lodge purposes.

Tom Morris, chairman of the new hospital board, was also chairman of the gathering and opened the official program with a short address. In turn he called on the following gentlemen who spoke on behalf of their respective organizations.

Mayor C.E. Reiber of the Town of Didsbury.

Reeve A.L. Hoag of the Municipal District of Mountain View.

Mr. Geo. Clarke, chairman of the Olds Municipal Hospital Board.

E.E. Maxwell, supervisor of municipal hospitals for Alberta.

W. Mooney, sanitary inspector for Rosebud Health Unit.

Howard Hammell, M.L.A. for the Didsbury constituency.

Mr. Walters, of Bennett & White Construction Company.

Dr. J. L. Clarke, of Didsbury, who was made a very successful effort for the organization of the municipal hospital.

Dr. M.R. Bow, of the Department of Health, gave the official address and following his remarks he turned the key to the main entrance of the new hospital and admitted the huge crowd into the building to inspect the premises. The visitors were able to view the interior of one of the most modern 23-bed hospitals in the province and everyone seemed satisfied with the achievement they were mainly responsible for accomplishing.

The L.O.E. served tea to as many guests as possible in the afternoon, but the huge crowd could not be accommodated, although none was disappointed, realizing the handicap the ladies were under in trying to serve the large crowd.

Taking everything into consideration the official opening of the hospital was a very successful event, and as soon as the crowds left the grounds the patients were moved from the old hospital building to the new, and Didsbury's new municipal hospital is now in operation, realizing the dreams of many of our citizens, and especially of Dr. Clarke, the pioneer physician, who worked so hard for the establishing of the new institution.

Several of the neighbors have started haying, Friday and Saturday were ideal haying days.

Mr. and Mrs. Art Grange held their wedding dance in the Lone Pine hall last Friday. A good crowd attended and an enjoyable evening was spent. The couple received many lovely gifts and we wish them happiness in their new home west of Didsbury.

# It's Cooling "SATAJA" ICED TEA The Extraordinary Soldier

AFTER FIVE YEARS OF WAR, Canadian soldiers who have served overseas, many of them since the winter of 1939-40, are returning to their homes and large numbers of them are now resuming their civilian occupations. There is no lack of warmth in the welcome that is being extended to the returning service men, and conditions relating to their discharge from the forces are much more favourable than those which obtained at the end of the First World War. It is unnecessary at this time to remind Canadians of their debt of gratitude to the returned men, but it is important that we realize to remember it in the years to come, when uniformed men are no longer in evidence and the war is a part of the past. When we again enjoy the comfort and security of life in time of peace, we must not forget that these things have been preserved for us by the bravery and sacrifice of those who went to war.

## Make The Best Fighting Men

A British writer in an article on the "ordinary" soldier recalls that the Duke of Wellington, when asked just before a battle what he believed his chances were, pointed to a British foot soldier and said: "It all depends on this article." He goes on to speak of the ordinary soldier of the British army, "and his brothers from the British Dominions," and he observes that "for all their good humour they make the best and toughest military material in the world." History shows that the Germans have on more than one occasion failed to realize that fact, and that they have also underestimated the ability of the British people to change rapidly from peace to wartime conditions. It is pointed out that in 1939 Britain could not put twenty divisions into the field, but that when full mobilization was accomplished there were over 5,000,000 men in the British forces. In Canada and the other Dominions, civilians were likewise speedily mobilized and trained into highly efficient fighting forces.

## Responsible For Many Successes

The toughness and courage of the ordinary soldier were largely responsible for the many defeats suffered by the German and Italian forces in Europe and Africa. It is recalled that in Norway in 1940 a British force of only 21,000, in a defensive action, killed 37,000 Germans, suffering only 1,000 casualties itself. During the campaign in North Africa in a two-month period, a force of less than 50,000 men, commanded by General Wavell, destroyed the flower of the Fascist army, the prisoners alone numbering 133,000. During the campaign in Europe the courage and tenacity of the ordinary soldier fighting from the beaches of Normandy to the far side of the Rhine, figured largely in the successes which led up to final victory in that theatre of war. The British writer concludes with the observation that the "ordinary" soldier from Britain and the Dominions has come to be regarded as "extraordinary" by the enemy, and as such he should be remembered in his own country as well.

## Liner In Good Shape

Inspection Showed Very Few Scars On The Queen Mary

Five years of war service and the carrying of hundreds of thousands of rough and ready fighting men to war have left few scars on the liner Queen Mary, an inspection trip of the huge vessel showed.

The Queen Mary which arrived in New York recently with 14,500 American troops from Europe, was opened for inspection by the press for the first time since she slipped from her North river berth, March 29, 1941 into the obscurity of censorship.

The Queen Mary was outfitted for war at Sydney, Australia, where she arrived April 15, 1941. Many luxurious passenger fittings were removed, swimming pools turned to other uses, every available inch of space made into sleeping quarters.

But left intact were the great lounges, panelled in rare woods collected from every part of the British Empire. The valuable walls remain unscarred, without the initial of an enthusiastic rubber. Padded passageways and other sections of the ship also are unscathed.

The Queen Mary's cabin, it is reported, stays buoyant. There are troops, gave full vent to their anger. Hardly an inch of rail remains without initials.

## Youth Training

Estimated 40,000 Will Need Training In Vocational Schools

A report submitted by the Education Commission to the Dominion Youth Commission estimated that in the demobilization period 40,000 persons will require training or re-training in vocational skills. The report urged the extension of vocational training and the development of education throughout secondary schools and continuation of the Dominion-Practical youth training program.

The so-called steam that billows forth in clouds from volcanoes is not steam at all, but a form of dry gas.

## Great Help To Soldiers

General Patton Says Tanks Just Armored And Armed Infantry. Peter Edison, NEA correspondent, tells this story about a U.S. General's appearance at a press conference in Washington:

Tanks, Patton said, were nothing but armored and armed infantry. In the infantry you had the squad and in the tanks you had the crew. The tanks enabled the soldiers to arrive at the scene of battle less fatigued, and they enabled the soldiers to carry two blankets instead of one. Also, if the soldier got his feet wet, he could dry his shoes over the exhaust pipe.

The General said he thought there was a sort of race instinct that made people afraid of tanks. They used to be afraid of saber-toothed tigers and dinosaurs and things like that, and so now when they see a tank coming they think, "My goodness. Here comes a saber-toothed tiger!" and they run instinctively.

But tanks, he said, enabled armies to break through enemy lines to gain an advantage and keep the enemy running. If you're a prizefighter, you know that when you get a man on his heels you can lick him. If he can get back on his toes, or if he can put lemon juice in his mouth and lean on his head between rounds, it's a lot harder. But if you keep him on his heels he just naturally keeps on going over backward further and further until you bury him.

Secretary Stimson had introduced Patton as a cavalryman. The General said that if he had had a little cavalry in Tunisia and Italy, the bag of prisoners would have been a lot bigger. He figured it like this: If a man can go N number of miles an hour on foot, he can go N-plus-one miles if he's retreating. But if you go after him at N-plus-three miles an hour on horseback, you just naturally overtake a lot more.

Patton said he did have a little cavalry in Africa at that. Nine hundred men mounted on jackasses and bulls and horses and such things. But what amazed the General was how ignorant most Americans are about automobiles. They can all drive an automobile but they can't saddle a horse to save their lives.

## A Varying Quantity

Number Of Pounds In Legal Bushel Depends On Commodity

The bushel is a varying quantity. A bushel of wheat weighs almost twice as much as a bushel of oats, a fact that is quite generally known. There are, however, a large number of varying weights of the bushel, many of which may not be known to great numbers of people.

In contracts for the sale and delivery of the following commodities the legal weights (in pounds) per bushel are fixed as follows:

Alfalfa seed, 60; barley, 48; beans, 60; butternut seed, 70; blue grass seed, 18; bronze grass seed, 14; buckwheat, 48; clover seed, 60; flax seed, 56; hemp seed, 44; Indian corn, 56; lime, 70; malt, 36; oats, 34; peas, 60; potatoes, 60; rye, 56; soy beans, 60; timothy seed, 48; wheat, 60. Fort William Times-Journal.

## JUST PRESS BUTTON

Danish traitors sentenced to death in coming trials may be executed by a mechanical shooting apparatus which fires a volley by the mere touch of a button. The justice department is testing the machine.

## MACDONALD'S BRIER

Canadian Golf Clubs

LADY ASTOR ACQUIRES A DAUGHTER—The first big society wedding since the war ended in Europe took place in London, Eng., when Lieut. the Hon. William Waldorf Astor, M.P., and eldest son of Viscount and Viscountess Astor, took as his bride the former Hon. Sarah K. E. Norton, daughter of Lord Grantley. The bride and groom were pictured leaving the church, radiant with happiness.

## Price Control And Rationing Information

Q—Am an expecting visitor from the United States for the summer months. Will they be able to obtain temporary ration cards?

A—Visitors coming into Canada for five days or longer can obtain temporary ration cards on application to a local ration board.

Q—My dry cleaner will call at my home on certain days only yet I understand that restrictions on deliveries and pickups have been lifted. Is this not so?

A—Yes. Restrictions limiting wholesale and retail deliveries, pickups and deliveries by laundries and dry cleaners have been lifted, but a merchant is free to continue to limit these services if he wishes.

Q—Recently bought a cotton housecoat and on the first washing it shrunk so much that I haven't been able to wear it again. How should I go about reporting a case of this kind?

A—First of all, take the dress back to the store where you bought it. If the retailer will not make an adjustment on the dress, forward the complaint to the nearest War Relocation Authority office. The War Relocation Authority will advise you of the proper procedure.

Please send your questions or your request for the pamphlet "Consumer News" or the Blue Book in which you keep track of your selling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

## Heart Failure

Said To Be Due To Speed Of Modern Living

Science is convinced that the increasing incidence of heart failure is due almost entirely to the inactivity of modern living, coupled with its complexities, which make for worry and mental and nervous strain. It seems obvious, therefore, that we have to slow down and live simpler lives.

This is not easy of accomplishment. It requires a radical change in our whole social and business structure. It is not entirely a medical problem, but touches all phases of life, commerce, industry, government and sociology. It merits the closest study by all in positions of authority and influence, but a good start can be made if individuals will seek the best medical advice and then try to adapt themselves and their activities to it.

Windsor Star.

## MECHANICAL MEMORY

Dr. Vannoy Bush of the office of scientific research and development at Boston, predicts that men and women soon will be able to remember by machine instead of in their heads. Writing in the current Atlantic Monthly, Dr. Bush called this device of the future a Memex. He defined it as a device in which an individual stores all his books, records and communications.

## ON DISTANT PLANETS

Dr. Henry Norris Russell, Princeton astronomer, said it is reasonable to suppose there is life, like that on earth, on some distant parts of the vast universe outside the solar system. He based this, he said, on discoveries made since the war started.

## HOW YOU CAN GET QUICK RELIEF FROM SORE, PAINFUL PILES

Most people seem to think the only way to treat hemorrhoids is by surgery. But you can get quick relief from sore, painful piles by using Hem-Rol. Hem-Rol is a new, powerful, and effective treatment for hemorrhoids. It is a cream that you apply to the affected area. It is a cream that you apply to the affected area. It is a cream that you apply to the affected area.

NOTE: This general offer is backed by a reliable firm doing business in Canada. Hem-Rol must be used for 10 days. Hem-Rol must be used for 10 days. Hem-Rol must be used for 10 days.

HERE A CWAC—

Just around the corner from "The" said Sgt. Josephine Pederson, Prince Albert, when asked where she was billeted during her overseas stay. "We didn't meet him but we did talk to his driver nearly every day and he told us a lot about the General." Stationed in London with Canadian Military Headquarters, she had plenty of opportunity to see the sights of London, Madame Toussauds Wax Works and Kew in this time. On her longer leave she visited Wales and different parts of southern England. "It was our good fortune," Sgt. Pederson goes on to say, "to know those sent on a short course to Edinburgh University."

She was a member of the CWAC, and attended the graduation of the Medical Students among other things. Preceding Josephine overseas was a certain F.L. Pederson whom she had met in Prince Albert. She married him in December, 1943, at St. Martin's in the Field, London. Sgt. Pederson joined the CWAC in December of 1941. Since her return from overseas she has been engaged as Sergeant Mess in the CWAC. "I'm looking forward to settling down in a home of my own," she states.

ENLIST—Miss Gladys May Holiday, Tuxford, Sask., recently enlisted in the Canadian Women's Army Corps at Regina. Prior to her enlistment, Miss Holiday served in the R.C.A.F. (W.D.) for three years. Her father, A.C. Holiday farms at Tuxford, Sask.

BOOKWORMS—With a view to improving library service to Canadian Troops in England, it has been decided to appoint qualified librarians to serve in each military district such librarians to be chosen from the ranks of the C.W.A.C. In lieu of a degree or diploma in Library Science, applicants for the position of librarian will be chosen from their experience in recognized Public Libraries. District Librarians on the staff of the District Education Officers will supervise unit librarians giving training (continued on next page).

They will arrange to provide library service on an expeditious and exchange basis for units that are too small to maintain their own libraries and will superintend the selection of books for various types of establishments. For example, there is a marked variance in the type of library material suitable for hospitals, training centres, Veteran Guard establishments and CWAC units. Prior to this no recognition has been taken of this fact but it is hoped that District Librarians will be able to accomplish much in this regard.

A MAID AND A MILLION MEN—ALMOST—A maid among what might have looked like a million men was nearly the plight of Capt. Margaret M. Donnell, former CWAC Medical Officer at Regina. Returning from overseas her name was inadvertently listed among those of hundreds of servicemen moving from Halifax to points throughout Canada. If the error had not been discovered in time, she could have been the only woman aboard a packed troop train that arrived in Regina recently. As it was, however, she came to the city earlier in the day on a train carrying a number of nursing sisters. Capt. Donnell who was stationed in a hospital for

## GEMS OF THOUGHT

RIGHT PRIVACY—The force of an ideal is greater than the ideal of force. Josephus Daniels.

From lack of moral strength embolden fall. Right alone is irresistible. Permanent, eternal, Mary Baker Eddy.

The ultimate action of right is that which leads to the universal good, and when one's acting in a certain manner has this tendency he has a right thus to act.—Francis Hutcheson.

If mankind had wishes for what is right, they might have had it long ago.—William Hazlitt.

God is able to meet the need of all and fulfil every desire. It is just a question of your hunger for righteousness.—R. A. Butler.

Then peeled the bells more loud and deep: "God is not dead, nor doth He sleep! The Wrong shall fall. The Right prevail. With peace on earth, good will to men!"—Langfellow.

## Did You Know?

With a 10¢ package of WILSON'S FLY PAID will receive 10¢ worth of WILSON'S FLY PAID. WILSON'S FLY PAID is a new, powerful, and effective treatment for hemorrhoids. It is a cream that you apply to the affected area. It is a cream that you apply to the affected area. It is a cream that you apply to the affected area.

## How The Laws Of Nature Influence Our Weather And Why We Have Wind Storms

(By John A. Marsh in The Ottawa Journal)

WIND, like so many of nature's tools that fashion the workshop of the earth, can be a faithful servant or a terrible master. In the former role it can steal in the window as a soft breeze, caressing the fevered brow of the sick. In the latter it can smash a ship, crumple a plane, uproot a tree or lay waste a countryside. More than any other factor wind influences our weather.

It is obvious that wind is moving air. But what makes it move and why are our winds South-West and North-East, each bringing with them a different sort of weather?

The equator is the birthplace and the cradle of the winds, for here the greatest South wind is born. We all know that hot air is lighter than cold; that all air when heated expands and spreads its molecules apart. It becomes spangly the hotter it grows, while cold air contracts, shrinks, closes its molecules together and becomes spangly the colder it grows. Hot air rises if it can and cold air sinks toward the earth.

The air at the tropics is therefore always swelling and rising; at the poles always shrinking and falling. This up and down force creates a vacuum and so we have air rushing in to fill that vacuum. It follows that hot air from the tropics must always flow northward in our hemisphere toward the North Pole, and southward in the southern hemisphere toward the South Pole. To fill up the vacuum space which hot air at the poles leaves empty when it shrinks.

The foregoing applies, however, to a stationary earth and our earth is not stationary. It is rotating at a speed which at the equator reaches 16 miles per minute. Were the earth not rotating the winds would blow directly North and South, at different altitudes, of course, and in a short period of time all the air would be packed at the poles with relatively little remaining at the equator.

The rotation of the earth is from West to East and thus the course of the main air flow is altered from due South and North to South-West and North-East or vice versa depending upon one's location on the earth's surface.

It is necessary for us to remember that the earth's atmosphere obeys the law of gravitation; that the earth constantly pulls it toward itself. Otherwise we would lose our atmosphere by centrifugal force. And so our atmosphere revolves with the earth and keeps humans from being blown off into space.

So far, no one has, although a few dictators more or less could easily be spared.

Certain vagaries of wind and pressure result in gales and cyclones destroying life and property. A twister or a tornado is a frightful thing. In Canada we are, to a large extent, free of such but the western Prairie Provinces get the occasional tornado where a barn is picked up and carried for hundreds of yards and occasionally people are killed. These are violent windstorms revolving around a centre like a spinning top and travelling 100 miles an hour as they spin. When occurring over the ocean the waters are piled up in heaps; ships are torn from their anchorage in harbor or founder at sea. The closer to the equator the more violent are the winds because here the earth and its atmosphere are whirling more rapidly than toward the poles.

A thunderstorm, however, is known to all of us and welcomed by most as a spectacular and beautiful display of nature's power. Here a new element enters, the electricity of the earth and its atmosphere. A thunderstorm might be described as a wedding between wind and electricity either a wedding or a fight and is caused by a wind blowing in one direction in the upper atmosphere, passing another travelling in the opposite direction, the upper being more heavily charged with electricity than the lower. Thunderclouds appear to come up against the wind, but it is only against the clockwise earth wind which you feel. The thundercloud or storm itself is moved by a contrary wind which is blowing directly opposite to the wind which you feel.

In 1752 Benjamin Franklin flew a kite in a thunderstorm and attached a key to the end of his string. A strange new energy travelled down the string, and sparks from the key sought contact with the earth through the kite flyer. Thus he discovered through his most dangerous experiment, that thunder and lightning were caused by electrical energy. The small boy is urged not to repeat the experiment, for if a thunderbolt should choose to follow the wet string

downward to the key the experimenter might easily be killed.

So far as is known, lightning differs from the electric spark only in the amount of its force. Whenever we see lightning flash in a series of lines it is called "forked lightning". In such a type, electrical energy finds its way along the particles of air which afford it the readiest passage, and because of the lack of consistency in the air, the line is seldom straight. Short lightning is not true lightning but only the reflection of forked lightning on obscuring clouds.

Thunder is the shock or noise of the explosion caused by the release of air following the passage of the lightning. The coil and reverberation following the clap of thunder is the echo from the clouds in the sky. If there are no secondary clouds there is no secondary rolling of thunder.

In watching a thunderstorm try and associate the lightning flash with the clap of thunder. When the two are close together the storm centre is close; the further apart they are, the further is the storm. As little as a second and as much as a minute may separate your vision of the lightning and the hearing of the thunderclap.

### Alaska Air Service

To Supply Air Service Between Whitehorse And Fairbanks

TransCanada Air Lines has granted a sub-contract to Yukon Southern Air Transport whereby that company will immediately undertake to supply air service between Whitehorse, Yukon Territory and Fairbanks, Alaska. This has been made possible by the passage of an Order-in-Council designating Whitehorse Fairbanks as a T.C.A. route but granting TransCanada Air Lines the power to sub-contract.

In no way does T.C.A. by this action sacrifice its right or intention of eventually operating over this important international route. The agreement is for one year only renewable annually. Also, either party can terminate it at three months' notice. In the meantime, the sub-contractor accepts all revenues and expenses resulting from the operations.

The sub-contract was granted to satisfy immediate requirements of the North-West which T.C.A. with its limited fleet, could not meet, there being urgent need of additional services in more heavily populated areas of Canada.

### Less Coal For Britain

People Are Told Ration Will Be Lower This Winter

British consumers, who last year shivered through the winter on a coal ration of little more than 100 pounds a week for all their heating, will face a further cut of two per cent next winter, the controller general of the ministry of fuel and power, Sir Herbert Houldsworth, announced. He said "we shall only get through by rigorous control of coal supplies."

### POLLY TECHNIC

It has been announced in England that there is a large field for the employment of women in the building industry.

Polly bring the mobile crane. Polly bring the steel-strip frame. Build our cottage in the lane.

Take the decking from its case. Screw components into place. Weatherproof the outer face.

Haul the concrete to the site. See the chassis stands upright. Fix the foam-slag roof on tight.

Walls come in a single sheet. Insulate all complete. Fix the plumbing and the heat.

Lay the precast roof proof floor. Pack the walls and hang the door. Plaster the interior.

Cover joints with metal scrim. Pack the kitchen units in. Stainless sink and garbage bin.

Run up the partition slab. Hurry with our shag pre-fab. Quick, before the neighbors grab.

Polly now the house is done. Ceiling the brear and scene. Polly put the kettle on.

We'll all have tea.

—Scorpio, in London Daily Herald.

The first woman pilot to fly the English Channel was Harriet Quimby who made the trip in 1912.

**VICTORY AHEAD**—Admiral W. E. Bull Halsey, commander of the third fleet, now operating in the Western Pacific, looks out from his flagship at other units in his command as the powerful force prods the ocean looking for the elusive reined Japanese navy.

### World's Fastest Ships

Royal Navy's Minelayers Can Travel 45 Miles An Hour

It came as a surprise to seafaring men when it was revealed that the Royal Navy's minelayers are the fastest ships in the world. There are small motor craft that whizz along a bit faster with a few hands on board to fire a torpedo or a small gun, but these minelayers are 2,650 tons, and besides a battery of mines, they have six 4.7 inch guns, and their speed is 45 knots, which is 45 miles an hour in beachcomber language.

There were only four of these ships and they were in service five years ago. These minelayers are in the nature of a submarine. They had to dash close inshore under enemy guns and lay their "eggs", or they dived into Italian harbors and did their job. They shiedly relied on speed for safety but that did not save them for only one has survived. Another fine job they did was to run the blockade into Tientsin during the height of the recent blitz with food and munitions.

But even better ships are being built, and one is in service. These "Shuttles" of the sea will probably be in action against Japan. St. Thomas Times Journal.

Mark Twain took out a patent for a "self-purifying scaphopod" in 1873 and sold 25,000 copies.

**MEET EDMONTON CHILD PRODIGY**—Seven year old Fern Turnley, Edmonton, Alta., child prodigy, and human guinea pig for her father, Francis R. Turnley who has made an analysis of the English language from which he is compiling a new system of educating children. As a result of this new system, Fern, at pre-school age, was able to read anything a school principal could read. Now at seven she is a walking encyclopedia. Mr. Turnley has broken the language up into 313 sounds of true sound pieces of words.

### Scarlet Pimpernels

Secret Missions One Of The War's Greatest Secrets

From the little village of Tempsford in Bedfordshire the R.A.F. operated two secret special missions squadrons. None of the inhabitants knew that the R.A.F. station near them held one of the war's biggest secrets. These squadrons were the airborne Scarlet Pimpernels of this war. Group Captain P. C. Pickard, the famous "Target for Tonight" pilot, commanded one of them until he was killed.

The squadrons delivered arms, ammunition, radio sets, food and other supplies to the underground fighters of all the occupied countries. They carried skis and sleighs to the Norwegians and bicycles and bicycle tires (made in England but stamped with the names of French makers) to the underground in Western Europe.

There was also a passenger service. Czech, Polish and Dutch agents were dropped in their own countries, while others were brought back to England for training as saboteurs.

The old unnamed Lyonsiders and Hiders in which the "pick-up" flights were carried out had no secret devices to help them operate. Guided only by the dim lights shown by the patriots below, the planes landed in small secret fields to unload their passengers. The pilot usually flew alone with a map on his knees for there was no room for a navigator when there were passengers to bring back.

At first landing conditions were terrible. To improve these, the numbers of the underground were brought back to England taught where and how to build a landing field and then flown back.

About 700 resistance leaders in all made the trip.

### Canned Sandwiches

Were Developed For U.S. Army But Civilians Want Them

A cruet expects an army of enthusiasts, purchasers for his latest product, the canned sandwich. Developed for the Army, the canned sandwich has already proved itself acceptable to civilians, including hunters, fishermen, picnickers and housewives with lunch boxes to fill in a hurry. The initial sandwich is of sharp cheese between two slices of bread but the plan is to offer a variety of fillings with pronounced taste appeal. A recent conference of newspaper food editors heartily endorsed the new line. Marketing.

The Branden, Sun says the coming breadbasket should learn to cook a few things. When he is married he will want breakfast before going to work.

Chile was discovered by Diego de Almagro in 1535.

## The Value Of Rocket Bombs To Cross The Ocean May Be Counted Out For The Present

WHEN we remember that early in the century Prof. Simon Newcomb "proved" that no airplane could possibly carry substantial loads and that still earlier Tyndall and a score of equally eminent Victorian scientists thought Edison's filament lamp a technical absurdity it would be rash to dismiss the German claim that had the European war lasted six months longer the Atlantic coast of this country would have been bombed by trans-oceanic rockets. Assuming that the Germans were in earnest, they must have been prepared to go to any technical length and to any cost.

It has been estimated that to carry a twelve-ton bomb across the ocean 55,000 pounds of fuel would be required. The cost of the entire structure would run into the millions, with no certainty despite German assertions that even so large a target as New York would be hit.

Our Flying Fortresses may be crude, compared with rockets of the future, but at least they have the merit of travelling great distances, of destroying what commanders in the field have indicated and of returning for more work. It would have been technically less difficult, financially more practical and from the military point of view far more effective for the Germans to have spent millions on long-range bombers than on trans-oceanic rockets at this stage of technical knowledge.

Despite the success of both the V-1's and V-2's against England, rockets were dangerous to handle. According to the English technical press, the launching of some V-2's was accompanied by loss of life. Nevertheless it must be conceded that German technical thinking has been remarkably bold, and in war it pays to be bold.

The astronauts who would travel to Mars and Venus by rocket ships will probably derive considerable encouragement from German plans to bomb our Atlantic coast at a range of 3,000 miles. But here the technical case is much clearer. A few years ago J. W. Campbell, an English mathematician, estimated that a rocket ship able to reach Mars would have to be about five miles in diameter and as massive as Mount Everest. Even those who think in terms of less imposing craft admit that a ship which could travel to the moon would cost at least \$100,000,000 and weigh 40,000 tons at the start, with its fuel.

Indeed, it is the problem of fuel that bothers both the astronauts and the designers of trans-oceanic rockets. Even the German V-2 used up 8,000 pounds of fuel in a flight that lasted only five minutes enough to drive a B-24 Liberator, with two and a half tons of bombs, in a five-hour bombing mission and enough to supply eleven "A" bombers with all the gasoline now allowed for a year. As an immediate possibility the trans-oceanic rocket-bomb is not feasible, but as a weapon in a future war who can say? — New York Times.

There are good Germans everywhere in the world, in Canada and Britain and the United States, and in Germany herself still a leavening of good. But the bitter tragedy of Germany today is that there are few. So few that their weak protests could not make themselves heard above the screaming voice of a half mad Fuehrer.

The long inference of the years, the false sense of superiority, the arrogance of a class, the slow death of freedom drive from the Reich the stonewalling voice of those Germans of good will who might have saved her, as even ten just men might have saved Sodom.

There is little hope in a defeated Germany. It has lived too long, with that there is a great hope in these people who would not let the knee bow, evil whether it called itself Junkerdom or National Socialism, or clothed itself with any of the evil devices that bewitched their nation.

These are the people. These are the good Germans in whom we have never failed to believe. These are the people who will restore a world's faith in a Germany that still may be. From Liberty Magazine.

**MIGHTY AMAZON RIVER**—Something of the immense size of the Amazon River can be imagined by considering its most important tributary, the Madeira. Flowing through the heart of South America, the Madeira is certainly one of the greatest streams in the world. It is 2,000 miles long, and its basin covers about 425,000 square miles. One of its own tributaries is 900 miles long.

The forward speed of a tornado ranges from a few miles to nearly 160 miles an hour.

### New Crochet Note

by Alice Brooks

FAMILY ALLOWANCES  
IS BIG BUSINESS

The first payments of the Dominion government's family allowance plan were received in town last week and the money coming into Didsbury and district will amount to quite a sum. In fact it now constitutes the largest single pay check of the district outside of farm income.

Local business places cannot fail to notice the increased amount of money that is being put into circulation by the family allowance checks, especially from the families who were receiving small incomes. And these cheques will be coming in regularly every month.

The people of Canada as a whole will pay for these allowances and anyone with children and a moderate income of say \$2500 or less should not fail to register their children if they want the family allowance, which is the first real payment by a Canadian government on a social plan.

It is to be hoped that this family allowance plan works out satisfactorily and can be continued indefinitely. For it does, and along with unemployment insurance, our country should in the future be practically free from relief cases. At the same time, with increased spending power and adequate income taxes in the \$5,000 a year and over bracket.

kets, Canada can continue to be prosperous despite economic conditions in other countries.

CALF CLUBS STAGE  
SHOW AND SALE AT  
CARSTAIRS JULY 16

(Concluded from Page 1)

the calves. The champion was purchased by J. Booth of Carstairs for 45 cents per pound. Among the other buyers were T. Eaton, Co.; Burns and Company; Canada Packers; J. Harrison, Crossfield; Union Packing Company; Harvey Adams. The four calf clubs above mentioned have had a successful year. Meetings were held regularly, were well attended and keen interest was shown.

Following are the club leaders: West Didsbury, James Hughes; Carstairs, R.C. Sheehan; Granger, W.D. McDonald; Madden, J.H. Havens.

Hugh McPhail, district agriculturist, Olds, supervises the Madden, Carstairs and West Didsbury clubs, while N.F. Bell, district agriculturist, Drumheller, supervises the Granger club.

**White Shorthorn Heifer**  
Helen Waite of West Didsbury Calf Club showed a white Registered Shorthorn heifer, which was sold for 14 cents a pound to John

Rowntree, who will use the animal for breeding purposes.

Total receipts of the sale amounted to \$8,880, for an average price of 14.3 cents per pound.

Top price of 45 cents per pound was paid by the Carstairs Meat Market for the grand champion to Billy Francis of the Carstairs club for his 910 pound Hereford Steer, while Lloyd Hulstead of Granger Club received 24 cents per pound for the reserve champion (Shorthorn) purchased by T. Eaton and Co. of Calgary.

P. Burns and Co. bought 36 calves, Adams, Wood & Weiler, 8; T. Eaton Co., 10; and Canada Packers 5.

The Kiwanis Club of Calgary awarded their cash prizes for high score judging for the field day, of the four calf clubs at Yellowlees farm at Acme on June 2nd, to Jean Charlton, Richard Kimmel and Helen Wait, all of Carstairs club.

BRITISH NAVAL CRAFT  
OPERATING IN PACIFIC

More than 200 British naval craft of all types are already operating in the Pacific. This number will be increased with the steady flow of ships coming from home waters to supplement the British striking force which is so successfully co-operating with the American Navy in attacks on Japanese territory.

## ALL COULD DO WAS "WORST"

THE HAGUE.—Sabotage by a Dutch slave laborer in a German arms factory saved the life of a Canadian soldier in Italy because an enemy shell which landed near him failed to explode. Two days after the shell fell the soldier dug it up and found on it the sprawling inscription: "this is all I can do."

RATIONING OF MEAT SOON  
TO BE RESUMED IN CANADA

One and one third pounds of meat per person per week will be the new ration to Canadian consumers on resumption of meat rationing shortly, says Prices Board Chairman Donald Gordon.

It is expected to take nearly two months to get the machinery for meat rationing again in order, but commercial slaughtering controls come into effect on Monday, July 9.

Friday, July 13, the Prices Board again introduced Canadians to meatless days in restaurants and until the order is cancelled no meat will be served in public eating houses on Tuesday and Fridays of each week.

Announcements forecast all meat and meat products will be covered in the new Canadian ration. Plastic tokens will be introduced to cover smaller purchases of meat, according to the ration Administration.

Former meat ration in Canada of two pounds per person per week, designed to ensure equitable distribution rather than conserve supplies. Shipping lines and refrigeration facilities then limited wholesale shipments of meat overseas. Now Canada is pledged to share her abundant meat supplies with the liberated countries of hungry, war-torn Europe.

## BURNSIDE NEWS NOTES

Mrs. Isabella McCulloch and family of Turner Valley are visiting with relatives here. A few weeks before V-E day Mrs. McCulloch received word that her husband had been killed in Holland. Friends and neighbors extend to Mrs. McCulloch and family their deepest sympathy.

Mr. and Mrs. Jack Boulton and family of Calgary are holidaying on their farm east of Didsbury. Mr. and Mrs. Pete Schumaker returned last week from Regina after a two week stay in that city as delegates to the Lutheran Church Conference. Pete is now on the job again getting ready to build a large barn. He says he hopes to milk 20 cows this winter.

Sam McCullister spent Monday in Calgary. We are glad to see him around again after his long illness. Mrs. Bob McCulloch and Miss Eveline Boulton of Elora, Ont., were visitors with Mrs. Mardon last Thursday.

Mr. Howard Charlton and fiancée Miss Ruth Persinger, spent Sunday with Mr. and Mrs. Iver Weber. Several ladies of the district are taking in the Farm Women's Week at Olds. Among them are Mrs. Ar. Jenkins and Mrs. Enoch Hughes. There are there as guests of the Lone Pine W.I.

Capt. Page made a flying trip south this week and returned with a new threshing machine.

Miss Florence Cullen, Burnside school teacher, has resigned her position. Charlie Mardon has returned after spending the past two weeks at Sarsce Reserve Army camp. Old soldiers never die—they just fade away.

Mrs. Sandy Brander, Mrs. Joe Clarke and Mrs. Woods attended the W.I. conference in Didsbury on Saturday.

The Jenkins family attended the opening of the Didsbury Municipal Hospital and report everything fine but the heat.

Mrs. Woods and Kenneth spent Sunday with Cant. and Mrs. Page. Believe it or not—it rained east of town last Tuesday.

We are sorry to say that there has been hail on all sides of the Burnside district. We are keeping our fingers crossed and watching those clouds.

Mr. Otto Bittner is trucking this week for his brother, Gus, who is on the sick list.

## ATFIELD—PRETTY GABLE—PRETTY

Wesley United Church was the scene of a quiet but pretty double wedding on Monday, June 25th, 1945, at 8 p.m., when Olive Grace Pretty was united in marriage to Cpl. John W. Atfield, U.S. Army, son of Mr. and Mrs. J.J. Atfield of Union City, N.J., and Jennie Angel Pretty to S.A. Lawrence I. Gable, RCNVR, son of Mr. and Mrs. H.W. Gable of Didsbury, Alberta. Both brides are daughters of Mr. and Mrs. Frederick A. Pretty of St. John's, Newfoundland. Rev. A. R. Baggs performed the ceremony, while Mr. D. Osmond, L.R.A.M., organist of the church, presided at

## the organ.

Given in marriage by their father the brides wore gowns of white satin, made on princess lines with train and fingertip veil caught with a wreath of orange blossoms. They carried bouquets of red tulips and mauve fern. The bridesmaids were Miss Shirley McKay and Mrs. James Joyce, cousins of the brides, who looked charming in frocks of Aquamarine and lemon sheer respectively with shoulder length veils to match. Their bouquets were of Snapdragons, sweet peas and maidenhair fern. The bestmen were Cpl. James H. Knox, U.S. Army, and S.A. L.M. McLaughlin, RCNVR, respectively, while Mr. John McKay was usher.

The mother of the brides wore a navy and white dress with navy accessories, silver fox fur and a corsage of sweet peas and fern. During the signing of the register "O Promise Me" was beautifully rendered by LSA Gordon McKeen, RCNVR.

After the ceremony, the bridal party motored to the Holloway Studio and thence to the home of the brides where the reception was held and the usual toasts honoured.

After the reception the happy couples left for Tonsall where the honeymoon was spent. Going away the brides wore costumes of apple green with black accessories and powder blue with navy accessories respectively and corsages of sweet peas and fern.

The many friends of the young couples wish them many years of joyous happiness.—The St. John's Daily News.

To commemorate the wedding a chum, Sid Moore, RCNVR, wrote the following:

Another single man gone wrong,  
Another man embarked upon  
The Sea of matrimony.  
No "sea-time" has he had before,  
Already he is shaking.

He's realizing more and more  
The trip he's undertaking.

We've charted every rock and shoal  
And made things look so black.  
And warned him once he started  
out.

There was no turning back.  
We've tried to make him change  
his mind.

With "romancing" talks,  
We've hinted there's a "mother's  
corner"

Where they'll darn his socks.

Each day we've made up something  
new,  
And dreamed up other dangers,  
We've even told him his guitar  
And he, would soon be strangers,  
And so we've put him through the  
test.

To change him, we're unable,  
We really wish him all the best,  
CONGRATULATIONS, GABLE.

Are YOU  
Eligible for  
**NEW  
TIRES?**

That's the \$64 question today,  
but we will be glad to give  
you the answer. If you are  
eligible to buy new tires, we  
recommend the new Dominion  
Royal. "There's no finer tire  
built." But if you are not  
eligible, let our expert tire man  
build new life and more mile-  
age into your present tires.

WORLD HAPPENINGS  
BRIEFLY TOLD

Norway's new premier, Einar Gerhardsen, said that parliamentary elections will take place Oct. 8.

Admiralty announced that 263 British, Dominion and Allied minesweepers were sunk during the war, and 74 seriously damaged.

Canadian Red Cross juniors have contributed approximately \$250,000 to purchase food and clothing for children in war torn countries.

Maj. Gen. Sir Harry Davis Watson, younger son of Gen. Sir John Watson, V.C., and an extra cavalry to the King, has died at the age of 78.

President Truman has come out flatly in favor of the post-war completion of the Alaska Highway in co-operation with British Columbia and Canada.

British demolition squads are blowing up the Siegfried Line. The job of removing concrete pillboxes and dragons' teeth will require several years, officials predicted.

Yorkshire land owners have been invited to make gifts of oak trees from their estates for the restoration of the blitzed Guildhall. The wood will take five years to mature.

Three high ranking Chinese officials were executed for theft and extortion in the handling of military supplies for use in the continental counter-offensive against Japan.

A number of Thames fireboats of the National Fire Service which fought dock fires during the London blitz are being handed over to the army fire service for use in harbors and rivers of liberated countries.

## May Be Banished

Dutch Military Officials Have Idea For Punishing Traitors

Deportation of several thousand quislings to Dutch Guiana, South America, is under consideration by the Netherlands military administration as one solution of what to do with Holland's 100,000 war criminals, collaborators and Nazi sympathizers. Cautiously preparing the frame work for punishing traitors and quislings, Dutch military officials are giving much thought to the idea of enforced colonization.

They realize that it is obviously impossible to shoot all the out-and-out traitors, numbering perhaps 20,000. The idea of transporting Dutchmen and their families to fabled, swampy jungle-lands emphasizes the problem of purifying war guilt without allowing the spirit of revenge to turn into a bloodbath.

## WOULD CHANGE PLACES

It was very obvious that the new recruit was a raw hand at boxing as he entered the ring, and when he saw his hefty opponent he became more nervous still.

As he went to his corner he saw there a man with a towel thrown over one shoulder.

"Who are you?" he asked.

"I'm your second," was the reply.

A look of relief lightened the recruit's face as he said:

"No, you go first—I'll go second."

## WANT TO GO BACK

The Victoria Daily Colonist in a special dispatch from Ottawa quoted Arthur MacNamara, director of selective service, as saying that a "very considerable" number of Japanese in Canada have asked to be returned to Japan at the conclusion of the Pacific war.

## LIFE'S LIKE THAT

By Fred Neher

"Four guy... They say nobody ever called for him."

## On The Double

Construction Group Built All-Weather Airfield In Record Time

When Field Marshal Montgomery chose the date for the Rhine crossing it was expected that the most forward airfield of Air Vice-marshal Huddleston's No. 84 fighter group of Second T.A.F. would still be under construction. Thirty days had been reckoned as the time needed to complete the work, but 1,000 airfield construction group men, men of the Royal Engineers and the Pioneer Corps—cut down the time by ten days, and the airfield was ready 20 days after the first tree had been uprooted. It is not a mere landing strip of the type that airfield construction groups built in Normandy in a couple of days or so, but a complete, all-weather airfield. Here are some of the things the 1,000 men did in 20 days: Removed 21,800 trees, cutting down 10,000 of them by hand and uprooting 2,800 by bulldozers; knocked down eight houses; laid down 4,000 tons of steel planking to build the 1,500 yards long and 40 yards wide runway; the taxiing strips and the dispersal points; and excavated 150,000 yards of earth and replaced it with 100,000 yards of sand.

## Dickens Fellowship

Members Protest At Rumor That Famous Author's House Will Be Pulled Down

Dickens Fellowship members in London are filled with dismay at the news that Dickens' home at one time—No. 1 Devonshire Terrace, Marylebone—is soon to be pulled down. A characteristic protest appears in the newspapers.

"The war," says one Dickens' lover, "has caused the loss of many historic buildings in London and elsewhere. Surely it is up to us to preserve those that are left. The house in which such immortal works as David Copperfield and The Old Curiosity Shop were written must be of great sentimental value to all lovers of the works of Dickens. It is surprising that none of the Dickens societies has tried to save this house for posterity."

## GUARDED LOUIS REIL

Alfred Smith, 84, who acted as a guard for Louis Reil before the latter's execution in Regina in 1885, is dead. A native of London, England, he served in western Canada with the then Royal North West Mounted police. It was during this period of service that he guarded the leader of the Northwest rebellion.

Alaska was once called Russian America.

Health  
LEAGUE  
OF  
CANADA  
presents  
TOPICS  
OF  
VITAL  
INTERESTSUMMER "GREMLINS" CAN RUIN  
HOLIDAY

In a warning to summer vacationists, the Health League of Canada advises there are many common summer hazards, which could be termed "Summer Gremlins," and which too often are forgotten or overlooked. The League's Industrial Division, in one of its pay-off pamphlet inserts, admonishes:

"Enjoy yourself this summer. But watch what you're about; the 'gremlins' sure will get you if you don't watch out."

Stating that vacation-time should be a period of relaxation, recuperation and restoration, the League advises vacationists to take it easy—enjoy the warm days, but watch out for "Summer Gremlins," a name that could be applied to the common hazards that all too frequently rob them of needed pleasure and change.

For instance, sunbathing, taken in proper doses, improves your health. Sun baths should be brief at first, just 10 minutes the first day, 15 the second and so on. Remember, it takes 16 days to safely sun-tan a child. Burns should be treated like burns from any other source.

Steer clear of the plant with three shiny dark green leaves—poison ivy. Those who become exposed should rub their bodies with soap suds, rinse and repeat. The rash away the oil, forestalling minimizing irritation. Soothing, protective lotions and hot compresses are standard treatment.

Chances should not be taken with impure water or with unpasteurized milk. Impure water should be brought to a boil before it is used or it can be purified by chlorination.

Milk can be pasteurized by the following home method advocated by Miss Margaret Smith, Health League Secretary.

First, the home pasteurizer should obtain a heavy aluminum container with faucet attached about two inches from the bottom. Also needed is a removable metal rack which should clear the bottom of the container by about 1/2 inch. The container should be deeper than quart bottles which can be used to hold the milk. An armored thermometer also is needed.

The filled bottles of milk, with the

IN HEART CRASH.—Mrs. Eleanora Henderson of Toronto, member of a circus troop on the way from Ottawa to Carman, Man. She was one of the five killed when a truck and car collided on the trans-Canada highway near Hearst, Ont. Four of the victims were in the circus troop.

Signing Of The Charter  
The World's Best Hope For The Future

The charter which the delegates of the United Nations signed at San Francisco on Tuesday (June 26th) is the world's best hope for the future. Though it may not satisfy some perfectionists, it does provide really workable machinery which, if used, will prevent another world war.

As President Truman said in his address to the Conference, the world must now use it. "If we fail to use it, we shall betray all those who have died in order that we might meet here in freedom and safety to create it."

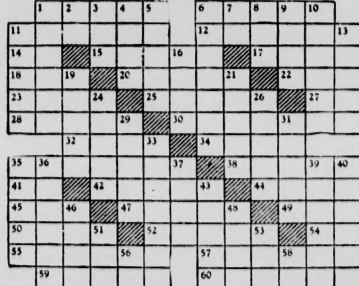

Milton sometimes had more than 300 words to a sentence in his writings.

thermometer inserted through the cap of one bottle, are placed on the rack in the container, in cold water about 1 inch from their tops. Heat is applied and when the thermometer reaches 143 degrees F., the heat is reduced so that the reading remains between 142 degrees F. and 145 degrees F. for 30 minutes. All virulent disease germs will then have been killed.

If ice is available, the water should be drawn off, a little at a time, and the ice added, until the reading is 45 degrees F.

## LOCAL NEWS

For painting and repair work apply  
to C. Rapin, East Didsbury. tr

Mr. and Mrs. Howard Halliday  
and Pat returned Saturday from  
a vacation at Banff.

Little Jeannie Ringheim is spend-  
ing part of her holidays with her  
grannie and grandad in Didsbury.

Members of Didsbury detach-  
ment of the 14th Army Tank Regi-  
ment, who have been in camp at  
Sorree for the past two weeks, re-  
turned to Didsbury Saturday even-  
ing.

Kenneth Morris, son of Mr. and  
Mrs. Tom Morris was operated on  
in the Didsbury Municipal Hospi-  
tal on Saturday for appendicitis,  
and was the first patient to have an  
appendectomy in the new hospital.

Ralph Edwards of Calgary spent  
Saturday and Sunday in Didsbury  
with his parents, Mr. and Mrs. D.  
Edwards.

W. F. Ross, manager of the Build-  
ers' Hardware Store at Carbon, and  
a former Didsbury resident, was a  
visitor in town Friday on his way  
back from a trip which Mr. and  
Mrs. Ross took to the Okanagan  
and back going by way of Spokane  
on the return journey.

Miss Irma Fisher, who was op-  
erated on for appendicitis recently  
in the Didsbury hospital, left that  
institution on Thursday and is re-  
cuperating at her home west of  
town.

Harold E. Oke unloaded two new  
McCormick-Deering self-propelled  
combines last Wednesday, but the  
new machines have already been  
sold, so all that farmers do is look  
with envy at what it may be pos-  
sible to purchase in the future.

The monthly meeting of the Le-  
son will be held on Saturday, 28th  
of July—on the East.

Mr. C. F. Nicholl, manager of the  
local branch of the Royal Bank of  
Canada, has returned after a two-  
weeks' holiday.

Mr. and Mrs. Lewis McCulloch  
and family have returned to their  
home in Vermilion after visiting  
with relatives and friends in town  
and district.

Mrs. W. E. Stiles has just received  
word that her brother, Capt. H.  
A. Dowler, has arrived safely over-  
seas.

Mr. and Mrs. R. Blain and Ever-  
ett of Calgary were in town Sat-  
urday for the McMullen-Blain wedding.

The picture showing at the Dids-  
bury Opera House on Thursday,  
Friday and Saturday, July 26, 27  
and 28, is "Irish Eyes Are Smiling"  
in color, featuring June Harver,  
Dick Haymes, Monty Woolley and  
Kenny Williams. On Thursday,  
Friday and Saturday, August 2nd,  
3rd and 4th, the special show,  
"Thunderhead" is coming to Dids-  
bury. Don't fail to see this remark-  
able picture.

### EVANGELICAL CHURCH NOTES

Morning service will be conducted  
on July 29th at 10:30 a.m., followed  
by Sunday school at 11:30 a.m. The  
Jutland Sunday school will be held  
at 2:00 p.m. and the church service  
at 3:00 p.m. The evening service  
will be at 7:45 p.m. The Albricht  
Brotherhood will meet on Monday,  
July 30th at 8 p.m. All men are in-  
vited to attend the meeting of the  
Brotherhood.

### CARD OF THANKS

The Board of the Didsbury Muni-  
cipal Hospital wish to thank every-  
one who helped to make the open-  
ing of the new hospital last Friday  
such a success.

W. W. GILLRIE, Clerk  
Phone 84—Didsbury

## SCAVENGER WANTED

FOR TOWN OF DIDSBURY

Duties to commence August 1st, with monthly  
salary of \$125.00.

Apply to ED WATKIN,  
AT THE BUILDER'S HARDWARE

Mr. and Mrs. D. Stobbe and daugh-  
ter of Allona, Man., are visiting  
with Mr. and Mrs. Henry Hamm.

Miss Adina Schmidt, nurse-in-  
training at the Royal Jubilee Hospi-  
tal, Victoria, B.C., arrived Mon-  
day to spend her holidays with her  
parents, Mr. and Mrs. J.B. Schmidt  
and her sister, Mrs. Abe Schmidt.

Mr. and Mrs. A.S. Gole and daugh-  
ter, Grace, were Edmonton visit-  
ors the first of the week.

Miss Mona McKibbin of Calgary  
arrived Monday evening and is vi-  
siting with Winona Rouleau.

Dr. and Mrs. Summers are holi-  
daying at Banff.

Miss Mary Ringheim who is em-  
ployed with the Alberta Telephone Co.  
here left this morning for Rob-  
ert, Sask., where she will spend  
two weeks with her aunt and uncle.  
Mr. and Mrs. P. Morrison, and her  
cousin, Tommy.

### WESTCOTT W. I. MEETING

The postponed June meeting of  
the Westcott W. I. was held July  
3rd at the home of Mrs. J. Rob-  
ertson with a good attendance of  
members and some visitors.

The meeting opened with O Cana-  
da, followed by the Creed. The roll  
call was "what constitutes a good  
home maker," which proved very  
interesting.

Some of the members gave a  
story of their trip to some part of  
the world.

The draw was won by Mrs. J.  
Humbert, and for the social item  
Margaret Robertson sang a solo.

The meeting closed with the na-  
tional anthem, and lunch was serv-  
ed.

### MEET SON RETURNING FROM OVERSEAS

Mr. and Mrs. H. Ringheim were  
on hand at Mewata Stadium last  
Wednesday morning to greet their  
son, John, who arrived in Halifax  
from Ile de France the previous  
Friday.

Cpl. Ringheim has been overseas  
over four years with the 5th Ar-  
mouré Brigade. He saw action in  
Italy and Holland. By a coincidence  
F.O. Lloyd Ringheim returned to  
Canada on the same boat.

The brothers met in England prior  
to sailing but they didn't know  
they would be coming home to-  
gether. Lloyd went to Dauphin to  
join Mrs. Ringheim and they are  
expected to arrive in Didsbury  
shortly.

F.O. Ringheim was in England  
only a few months. He has enlisted  
for duties in the Far East.

### NOTES FROM THE WEST

Mrs. Rosewood Sr. Mrs. R. Mc-  
Naughton and Mrs. Dorey left on  
Sunday to attend the Farm Wom-  
en's Week at the Olds School of  
Agriculture.

Mr. and Mrs. Gillis had her niece  
of Regina as a visitor for the past  
two weeks, part of which time they  
spent at Banff.

George Miller, grandson of Mrs.  
H. Barnard, of Burrard Inlet B.C.,  
is spending his holidays in the Elk-  
ton district.

Sgt. E. Lowrie of Dundurn, ar-  
rived Saturday to spend his leave  
with his family, and Cpl. Isabel  
Lowrie of the WACS arrived Mon-  
day from Washington, D.C.

A shower was held at the home  
of Mrs. A.L. Hogg on Monday in  
honor of Miss Jean and Miss Edith  
Lowrie. The two district brides were  
the recipients of many lovely gifts.  
Blocks were embroidered for the  
brides, and lunch was served.

Congratulations to the newly-  
weds, Mr. and Mrs. Wilfred Blain,  
nee Pearl McMullen, who were  
married last Tuesday.

The district was shocked Sat-  
urday to hear of the death of Mrs.  
Bertha Stevenson, and the deepest  
sympathy is extended to the young  
husband, her mother, sisters and  
brothers.

Mrs. Martin Jacobson of Fernie,  
B.C., is visiting friends in the West-  
cott and Rugby districts.

Mr. and Mrs. E. Cowitz spent a  
few days visiting in Drumheller  
the past week.

Pat Mains returned from over-  
seas last week. He was met in Cal-  
gary by his wife and little girl.

Mrs. F. Byrt visited with her  
daughter, Mrs. E. Fisher, for a few  
days last week.

### NOTICE TO RESIDENT NON-RATEPAYERS IN THE DIDSBURY MUNICIPAL HOSPITAL DISTRICT No. 33

Resident non-ratepayers in the Hospital Dis-  
trict may receive hospital treatment at the rate of  
\$1.00 per diem, upon payment of a yearly sum of  
\$6.00 for a single person and \$8.00 per family, pro-  
viding half of this sum is paid to the Secretary-  
Treasurer not later than July 31, 1945, and there-  
after the full sum is paid not later than January  
10 in each year except that persons entering the  
Hospital District must pay this sum within three  
months after coming to the District. The Board  
retains the right to refuse to accept this payment,  
if in its opinion, it is made for the purpose of re-  
ceiving immediate hospital treatment. In this  
para graph, the family shall mean the father, mo-  
ther and dependent children only.

The said Hospital District comprises:

All of Township 30, Range 27, 28, and 29, West  
of the 4th and 1, 2, 3 and 4, West of the 5th M.

All of Township 31, Range 27, 28 and 29 West of  
the 4th and Ranges 1 to 4, West of the 5th M.

Sections 1 to 6 in Township 32, Ranges 27 and  
28 West of the 4th.

Sections 1 and 2 in Township 32, Range 29, West  
of the 4th.

Sections 1 to 6 in Township 32, Range 1, West  
of the 5th.

Sections 1 to 12 inclusive in Township 32, Ranges  
2, 3 and 4, West of the 5th.

Town of Didsbury.

H. LYNCH-STAUNTON, Secretary
